## **SAVALLOS TRADING AND MANAGEMENT GROUP**

During its more than ten years of history, Savallos TMG has developed strong business relations with producers of medical, rehabilitation and spa equipment and furniture from different countries. We are ready to offer you all the necessary equipment and services creating unique spa projects, rehabilitation and healthcare facilities. We'll help to design, train the team and support at all steps of operation.

The equipment offered by us is installed and operated at many projects around the world, such as the rehabilitation centers, spa hotels, health and beauty centers, fitness clubs and much more.

*TRAUTWEIN*

## **WHEN THINGS IN YOUR LIFE ARE IDEAL, YOU USE THE PRODUCTS OF TRAUTWEIN**

Trautwein has been producing high-grade equipment for SPA salons and Wellness centers.

The company has existed since 1929 and to this day remains under the control of business owners who are directly involved in all production processes.

It uses only components from local manufacturers for the production of its products, moreover from neighboring villages, thereby providing jobs and helping the economy. Maintaining the aesthetics and premium appearance of bathtubs, the manufacturer uses Grohe fittings.

Trautwein is an environmentally friendly company, because solar panels are used for production, which are installed throughout the plant. In addition, the surplus generated by the solar panels is used to power the Emedingen suburb.

Product line has a wide range for both wellness and medicine. As Trautwein manufactures medical products, they incorporate medical technology into their wellness and spa products to ensure their safety and functionality. For example, the hot tubs are equipped with a medical disinfection system. Just add a disinfectant and press a button to clean all the channels and nozzles, which distinguishes Trautwein baths from others.

All baths are produced by medical acryl of their own production and are formed by a seamless method.

Therefore, the surface of the baths has no joints, which allows you to maintain aesthetics and ensure comfort and safety.

Each product combines intellectual ideas and technical perfection. Stunning designer solutions for your SPA center, different materials, high functionality and easy handling open endless possibilities for you.

Relax and forget your problems, while Trautwein will take care of your wellbeing.

A person's legs are visible, resting in a white, fringed hammock. The hammock is suspended from a large tree branch on the right. The scene is set on a sandy beach at sunset, with the sun low on the horizon, casting a warm glow. In the background, there is a calm body of water and distant, hazy mountains under a blue sky with light clouds. The overall atmosphere is peaceful and luxurious.

Twaeli

# Twaeli

Twaeli thermocouch has sophisticated design which will be integrated in any premises and give them status and elegance.

Gentle tingling waves pierce your body in the rhythm of the music played.

You hear gentle sounds and perceive harmonious vibrations with all your feelings and in each cell of your body. Daily routine disappears and gives way to calmness and good mood. Warm ergonomic bed with soft pillows pampers you with the highest level of comfort.

Twaeli is an unprecedented level of relaxation when you need it: after the sauna, at the end of a hard working day or just between SPA procedures.

The couch is made of high-quality materials: the frame is of cast acryl with ceramic polished cover; the upholstery is made of Alcantara®, a material that is comfortable, durable and easy to maintain, which has become a synonym of luxury, elegance and comfort.

Vulkanosand

Psammotherapy on the couch with volcanic sand is a unique possibility to relax and fully plunge into the atmosphere of a sea resort

# Vulkanosand

The relaxing properties of warm sand have been known for a long time.

In the Mediterranean region, bathing in warm sand was used to ease muscular pain, spinal pain and rheumatism, and also for general improvement of wellbeing.

Vulkanosand, a couch with vulkanic sand, is ideal for psammotherapy [treatment with hot sand), different kinds of massage and Ayurvedic procedures.

Comfortable and well thought-of construction of the couch allows to fully relax and get charged with vital power during the procedures. The sand mix prepared on the basis of patented technology is soft and amenable to the shape of the body. Thanks to its structure and composition it has an especially high coefficient of heat transfer. The soft influence of heat relaxes the muscles, and the person has the feeling of pleasant warmth and calm during the procedure.

ThermoSpa

Contactless thermal baths, body wraps, mud therapy and thalassotherapy – SPA system with the floatation effect combines unique functional possibilities with feelings of weightlessness and flight. Unforgettable sensual experiment that expands your consciousness.

# ThermoSpa

ThermoSpa is a heated surface for cosmetic wraps, including with combination of thalassotherapy, aromatherapy and different balneological procedures. Right after wrapping, the you are put on soft warm surface to achieve the effect of relaxation. The couch is lifted up, and you, enveloped with pleasant warmth, feel like in "weightlessness".

The vibrations synchronous to the rhythm of your breath take you to the state of full relaxation. Their rhythm intuitively adapts to the adjusted mode of wellbeing. Relaxing impulses give the body harmony and guarantee deep relaxing effect.

Floatation in light: the light of powerful unflickering LED lights has the natural rainbow colors. You can choose polychromic colors or your favorite one. You plunge into the sea of vitalizing and reviving light.

# Multifunctional SPA-system

The multifunctional SPA-system from Trautwein combines dry and hydrofusion effects on the body. Their main difference is the principle of impact on the body.

In one case, there is an effect of heat, and in the other - mainly water.

The uniqueness of the Trautwein system lies in the ability to combine the functionality of dry exposure - collagenarium with the using of chromotherapy and thermal exposure rejuvenates the skin, saturating it with oxygen, stimulating the natural production of elastin and collagen. A steam sauna with a Vichy shower creates a unique environment inside the capsule, comparable to the presence of a child in the womb, creating a feeling of calm and complete relaxation of the body.

Mental and physical recovery when using the Concerto function - sound and vibration accompaniment - opens up unlimited possibilities for specialists for the treatment and prevention of various diseases, relaxation, weight loss and aesthetic problems.

Ergolima

A perfect interior solution that brightens all the space around  
A table for wet massage brings true pleasure

# Ergolima

A deluxe Ergolima table offers unprecedented comfort for wet massage and oriental rituals. Its spacious heated surface of high-quality texturized acrylic glass supports the temperature that is pleasant for the body.

You can relax lying on the stomach, with your hands put on a special ergonomic support. There are pillows for the head, chest, back, knees and feet to allow even more comfort.

In such comfortable atmosphere you can fully enjoy massage, soap foam, peeling, hamam, as well as Ayurvedic procedures, massage with hot stones, wrapping or Vichy shower.

The Ergolima table for wet massage will be comfortable both for the client and for the specialist. Fluent regulation of height allows you to work without loading your back.

Vichy Rainbow

Natural shape brought to perfection  
Exclusive design, accentuated with LED lights with Swarovski crystals, involves  
a whole range of feelings and allows to feel one whole with the nature

# Vichy Rainbow

Trautwein proposes new sophisticated experience of taking a Vichy shower using a perfect technology supplemented with intricate design. The shower has two lines of mini nozzles which can change the direction of jets, pouring the body from neck to feet. The intensity of water supply may differ from thin jets, similar to light sea waves, to the warm summer rain or downpour, it's up to you to choose. Fragrant salts or moistening oils may be added to water to improve your wellbeing and mood.

Unflickering LED lighting allows you to additionally use chromotherapy. Sparkling multicolored water jets fall on your body through glittering Swarovski crystals, plunging you into the state of full relaxation and nirvana.

Yin Yang

Elegant design and luxurious sensuality of procedures transform reality and allow to enjoy emotions

# Yin Yang

An extraordinary Wellness experience which the customers will recollect with pleasure for a long time. The minutes spent by couples together are priceless, so more and more customers prefer to get joint pleasure from procedures and create a new brand of paired wellness.

A bath for two where everyone can enjoy the selected temperature, chromotherapy settings and fragrant oils in its own tub. The LEDs integrated into the bath give the water rainbow colors. An especially deep feeling is created by sound water massage. The sounds come not from the loudspeakers but from the bath itself. During bathing, sound vibrations are transmitted in water and perceived by every cell of your body.

Bubble massage with "Champagne effect" in the Yin Yang bath allows to relax, restore your powers and get charged with energy. Whirling streams of the smallest bubbles of 120 ergonomically located nozzles caress your body and propose to make the minutes of enjoyment last.

Hydroxeur

# Hydroxeur 200

The Hydroxeur® 200 bath represents a new and unique offering for a demanding clientele in hotels, SPA centers and beauty clinics.

The Hydroxeur® 200 offers all the benefits of a luxurious bathtub in an aesthetic design, equipped with modern and reliable technology.

Using of medical technologies which developed by Trautwein avoids the growth of bacteria in the air supply and heating system, as happens in conventional jacuzzis. A built-in automatic flushing system is provided for flushing the entire channel system and is carried out after each drain of the bath.

As a result, the smallest air bubbles are added to the water, and the temperature of the water circulating in the bath remains constant without additional heating. The elimination of the air heating system makes Trautwein's hydromassage baths the most hygienic and safest.

The bath can be equipped with up to 290 hydromassage jets, 60 airmassage jets, LED lighting, filling control, automatic draining and user-friendly control system with waterproof touch screen or Bluetooth tablet. All these features make bathing a real pleasure.

Custom design options guarantee perfect integration into your  
spa center and relaxation area

# Worishofen

Balneological baths Worishofen 1800 AC are able to turn medical procedures into a real pleasure, filling the air with the aromas of mountain herbs and exotic oils, saturating the body with Dead Sea mud minerals. The unique underwater massage system, consisting of 8 anatomically located jets that create "whirlpool baths" and a shower-massage hose with the possibility of aeration, promotes deep penetration of therapeutic elements, maximum relaxation and muscle development.

Thanks to the seamless acrylic glass technology, the bathtubs are easy to clean and do not suffer from the influence of balneological solutions. Outside, the frame is reinforced with special fiberglass, which completes the laconic design of the bath.

An important advantage is the electronic demineralization of water, which does not require consumables.

Worishofen

## **DESIGN, QUALITY AND DURABILITY**

We take care of durability, reliability and comfort of products. Baths and couches are made only of premium acryl, the contact surface is always smooth, pleasant to touch and easy to wash. The varnish coat of decorative panels of Trautwein products is intended to last for decades.

The finishing of baths, tables and couches is made with premium materials, such as walnut, bamboo and zebrano wood, natural granite, Alcantara® suede. Also, couches and baths can be decorated with artificial leather or easy to touch ceramic panels.

The baths are equipped with premium Hansgrohe plumbing fixtures [Germany]. Cascading filtering system is used in the system of nozzles and water channels to ensure water cleanliness and softness. An integrated thermostat precisely keeps the necessary temperature. Double limitation and protection systems are provided to ensure safety. Special disinfection programs allow to save the client's and user's time.

Control systems are ergonomic, intuitive and easy to use. Advanced electronics allows to precisely set the required parameters, select wellness programs, including setting harmonious balance of heat, parameters of water or contactless massage, audio, magnetic and chromotherapy.

Passion and perfection in everything.  
Impeccable details and elegant forms accentuate hypnotic luxury and  
form the space of unique design and absolute relaxation.

## **We are focused on your wellbeing in all manifestations**
