

THERMO SPA IS SUITABLE FOR HOME AND COMMERCIAL USE

Thermo Spa

Thermo Spa - bed for dry floating from the german manufacturer of premium Spa and Wellness equipment Trautwein GmbH.

Dry floating gives you feeling of weightlessness - one of the most relaxing experiences you can get. You lie on 400 liters or 36-37 degrees warm water without getting wet.

Floating in an enclosed pod on top of the soft dry membrane, the body feels completely weightless, simulating zero-gravity. Just in 20 minutes into a float you lose all feeling in your body and transform into a floating consciousness without form. The mind loses all sense of time and space as your brain waves move into a theta state akin to those of a young child or someone in deep meditation.

You can order some integrated options:

External lighting AMBIENTE

40 white LEDs integrated in the cladding.

Massage module AquaJet

Massage with 20 integrated jets. All the possible programs are menu driven and can be selected on the touch screen.

Wellness-module CONCERTO

Sound wave massage through loud speaker installed in bed. The played music can be felt and heard.

Colour light module – AURA

8 integrated high-performance spots produce coloured lights that shine through the translucent film of the surface.

Thermo Spa doesn't require water connection.

Technical details:

Dimensions: length 2440 mm x width 1090 mm x height 620mm.

Sitting height: approx. 620 mm.

Height in upper position: approx. 850 mm.

Electric supply: 230 V, 50 Hz, 2500 W.
